I was set on a 2003-2005 KTM 525EXC but I've ridden 2 used 525 MXC's lately and both had very strong low end but little to no top end. My WR seems much more fun to ride, it has good low end power (heavy flywheels helps on trails) a strong mid-range hit and it pulls hard to redline.

I'm going to replace the tires with DOT because I'll be doing a good bit of road riding. My manual says 140/80-18 is the siz...

2007 KTM 525 EXC ODO reads 2200 ish miles but the display was replaced before i got it. Runs great, no issues. This year is one of the most reliable bombproof KTM engines, that's why I bought it after much research. Only issue with these is you can't just let them run without moving, they will overheat and anti-freeze will come out the overflow.
