In the case of *FTC v Hare* it was failure to deliver goods bought at an online auction. In addition, the United States found contracts were made up on the automated system in the case of *Cairo v CMS*, and it was held that Cairo was bound by the terms because when CMS sent them a letter they were informed of the terms. Hence, dealing with the automated system could result in a contract via the internet; therefore, the question is raised of what happens when there is an error on the price.
