The goal of Chapter 9 “Helping and Altruism” and Chapter 10 “Aggression” is to understand when and why people engage in either prosocial or antisocial behaviors. Let’s begin by focusing on the positive side of the equation—what makes us help others. Chapter 10 “Aggression” will discuss the flip side—the causes of human aggression.

Chapter 9: Memory One of my overall favorite chapters, which explores the scope and range of memory. How does one not remember what they had for breakfast the day before but remembers exactly what happened when the twin towers collapsed? This chapter explores the mystery and mystic of memory.

### Chapter 9 - Thrive in AP Psychology - Thrive in AP Psychology

In this chapter we consider how psychologists conceptualize and measure human intelligence — the ability to think, to learn from experience, to solve problems, and to adapt to new situations. We’ll consider whether intelligence involves a single ability or many different abilities, how we measure intelligence, what intelligence predicts, and how cultures and societies think about it.
