### Creating a Learning Society | Columbia University Press

Creating a Learning Society The transformation to “learning societies” that occurred around 1800 for Western economies, and more recently for those in Asia, appears to have had a far, far greater impact on human well-being than improvements in allocativeefficiency or resource accumulation.

### CREATING A LEARNING SOCIETY - LSE Home

more general: creating a learning society is necessary for advancements in standards of living, even for economies well below the frontier that were not at the vanguard of advances in science and technology. Accordingly, the reception that the book received—not just in

### Creating a Learning Society

Learning society is an educational philosophy advocated by the OECD and UNESCO that positions education as the key to a nation’s economic development, and holds that education should extend beyond formal learning (based in traditional educational institutions – schools, universities etc.) into informal learning centres to support a knowledge economy (known as a “world education culture”).
