...

Mold Wizard is built on NX, the industry's most powerful product development system. As a result, the tools for working with part geometry, creating parting surfaces and enabling automatic updates are among the most robust available. Less capable systems may handle basic parts and molds, but Mold Wizard can tackle the most demanding tasks.

NX Tooling brochure - plm.automation.siemens.com

One of the most complete and proven solutions: NX Mold Design replaces labor-intensive steps with process-specific functions that require only minimal input to execute. The result is remarkably faster turnaround compared to traditional software systems. In addition, with NX Mold Design, you can capture and leverage your own mold design expertise to further advance productivity.
