Because this site is dedicated to free  
books, there's none of the hassle you  
get with filtering out paid-for content on  
Amazon or Google Play Books. We also  
love the fact that all the site's genres  
are presented on the homepage, so you  
don't have to waste time trawling  
through menus. Unlike the bigger stores,  
Free-Ebooks.net also lets you sort  
results by publication date, popularity,  
or rating, helping you avoid the weaker  
titles that will inevitably find their way  
onto open publishing platforms (though  
a book has to be really quite poor to  
receive less than four stars).
