### Functional Assessment and Program Development for Problem ...

Functional assessment is generally considered to be a problem solving process for addressing behaviors of concern. Functional behavior assessments look beyond diagnostic labels or the overt topography (the way a behavior LOOKS) in order to obtain information that can be used to maximize the effectiveness and efficiency of behavioral supports.

### Functional Behavior Assessments (FBA)

A functional behavioral assessment looks at problem behaviors by analyzing behavior and interventions. Walker (1995) defined functional behavioral assessment as "...a systematic process for 1) understanding the nature and causes of problem behavior, and 2) developing cost effective interventions for changing or reducing that behavior..." (p. 77).
