Mower runs erratically then cuts off within a minute or so. Here's what I've tried so far: 1. new gas 2. cleaned fuel lines to check for blockage 3. checked ...

Honda 160cc auto choke problem - YouTube

The Honda started easy but required 30 seconds of warm up time at that temp to run smooth. It would surge until after 30 seconds. In warm weather there is no surging. The Honda engine is also quieter for some reason. In fairness I also have a twin 24HP Intek on my DYT4000. Never a problem with that engine.

Honda Engines....just how good are they?

- Your engine's exhaust contains poisonous carbon monoxide. Do not run the engine without adequate ventilation, and never run the engine indoors.
- The engine and exhaust become very hot during operation. Keep the engine at least 3 feet (1 meter) away from buildings and other equipment during operation. Keep flammable materials away, and
