### **ISO 27001 Lead Implementer**

ISO 27001 Lead Implementer training is the answer to those requirements. The following are the most important things regarding what the training looks like, and where you need to focus during the training. Duration of the training, prerequisites, and exams The duration can vary based on different training providers.

### **ISO 27001 Lead implementer training - What does it look like?**

First and foremost, it really is as obvious as it sounds: an implementer implements an ISMS (information security management system) in accordance with ISO 27001 and an auditor audits a third party's ISMS. (It's not good practice to audit your own implementation of the Standard.)

### **ISO 27001 qualifications: Lead Auditor or Lead Implementer?**

ISO/IEC 27001 provides requirements for organizations seeking to establish, implement, maintain and continually improve an information security management system. This framework serves as a guideline towards continually reviewing the safety of your information, which will exemplify reliability and add value to services of your organization.
