ASPCA SAFER® (Safety Assessment for Evaluating Rehoming) is intended to be one tool used to help identify the risk of future aggression and individual behavioral support needed before adoption for each dog in a shelter. The ASPCA's work changes as new research and information comes to light. While formal assessments can be helpful, we want to thoughtfully review all elements of SAFER so shelters have the most up-to-the-minute material and approaches to gather the best information on dogs ...
